DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. Claims 23-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is vague and indefinite what the "region of atmosphere" entails since the metes and bounds of such a region have not been determined with any specificity.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 23-25 and 33-35 are rejected under 35 U.S.C. 102(b) as being anticipated by the patents to Richmond ('749) or Connolly ('270).

The text of the rejection of the abovenoted claims is set forth in the International Examination Report.

Art Unit: 3662

5. Claims 23-25, 27, 28, 29, 30, 31, 33-35, 37 and 38 are rejected under 35 U.S.C. 102(a) as being anticipated by the patent to Zediker et al ('817).

6. Claims 23-25, 27, 28, 29, 30, 31, 33-35, 37 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by the patent to Wooten et al ('668).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 26 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over the patents to Richmond ('749), Zediker et al ('817), Wooten et al ('668) or Connolly ('270).

It is noted that the limitation to directing the beam to a specific area or field of view is a design choice and obvious to one of ordinary skill in the art.

Allowable Subject Matter

9. Claims 32 and 42 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
